

**2019-2020**

# **Mini Solar Challenge Program**

**- FREE program with Limited Spots Available! -**

**Interested in a fun, hands-on program for your class? The Rowland Water District Mini Solar Challenge is just that!**

The Mini Solar Challenge is designed for both 5th & 6th grade classrooms to raise awareness in the stewardship of natural resources with a culminating project that results in the building of a mini solar powered boat. Students will have the opportunity to race against other participants. The program is aligned to both 5th and 6th grade science standards and will challenge the students in all aspects of Science, Technology, Engineering & Math (STEM).

**A presentation to go over the entire program will be held on October 3, 2019 at 3:30 PM at Rowland Water District (Board Room) located at 3021 Fullerton Road, Rowland Heights, 91748**

**SUBMIT APPLICATIONS TO BRITTNIE VAN DE CAR  
NO LATER THAN OCTOBER 10, 2019 BY 3:00 PM**

**Register for the presentation by emailing Brittnie Van De Car at [bvandecar@rowlandwater.com](mailto:bvandecar@rowlandwater.com) by October 1, 2019**

**Complete the application online at [rowlandwater.com](http://rowlandwater.com). If you have any questions, email Brittnie Van De Car at [bvandecar@rowlandwater.com](mailto:bvandecar@rowlandwater.com)**

**Once chosen to be a part of the program, all of the materials needed will be delivered to your classroom!**
