

## Water Bottle Filling Station Program

Rowland Water District offers this turnkey program to schools in our service area who agree to promote the value of tap water by replacing an existing drinking fountain with a water bottle filling station and a co-branded sign. Students, teachers and guests will appreciate cool, clean drinking water, made available free-of-charge!

This program is offered to qualifying schools in Rowland Water District's (RWD) service area, and we invite your school to join us for our Water Bottle Filling Station Program AT NO COST TO YOU! The program will be on a lottery-based system at the beginning of each school year and will be offered to two (2) new school sites a year.

### To qualify, you must:

- Be located in RWD's water service area
- Identify a water bottle fill station location in a highly visible public space
- Agree to place co-branded signage, provided by RWD, near the water bottle fill station
- Maintain the fill station and signage for at least 5 years

### RWD will:

- Coordinate an agreement of terms and conditions for signature
- Approve the proposed water bottle fill station location
- Provide co-branded signage, as approved by both parties
- Coordinate procurement and installation of the actual water bottle fill station
- Promote the water bottle fill station location on RWD's website

### Water bottle fill station features and benefits include:

- Single-or bi-level configurations (see respective photos to the right)
- 5-year warranty
- Quick fill rate of 1-1.5 gallons per minute  
(1 GPM for refrigerated models)
- Easy-to-clean stainless-steel exterior
- A visual indicator of the quantity of plastic water bottles saved from waste
- Vandal-resistant bubbler and push-button operation
- No filter needed, saving time and money
- ADA Compliant

*\*Total value of water bottle fill station, co-branded sign, and installation is approx. \$5,000*
